

Job Title: AV Technician – Live Stream & Sound Support

Location: Fox Chapel, Pennsylvania

Job Type: Part-Time

Schedule: Sunday mornings required (Services at 9:30 AM & 11:00 AM) | 7–10 hours/week

Compensation: \$25+/hour (based on experience)

About Us

Fox Chapel Presbyterian Church is a welcoming congregation. We are currently seeking a dependable and skilled **AV Technician** to support both our contemporary and traditional Sunday worship services through high-quality live streaming and in-house audio management.

What You'll Do

As our AV Technician, you'll play a vital role in creating a seamless worship experience for both our in-person and online communities. Your responsibilities will include:

- Managing and operating the live stream during Sunday services and select holiday services (e.g., Christmas Eve, Holy Week, Easter Sunday, Ash Wednesday).
 - Preparing the live stream and AV systems before each service.
 - Troubleshooting and operating the soundboard for both service styles.
 - Ensuring professional-quality audio and video output for live and recorded broadcasts.
 - Adjusting and setting up microphones, instruments, and AV equipment.
 - Troubleshooting technical issues on the fly to minimize disruption.
 - Collaborating with pastors, musicians, and volunteers.
 - Recruiting and training volunteers to serve on the Tech Team.
 - Setting up and breaking down equipment as needed.
-

What We're Looking For

The ideal candidate will bring technical expertise, problem-solving ability, and a calm presence under pressure. Key qualifications include:

- Experience in live streaming, AV production, or church sound systems.
 - Familiarity with Mackie Mixers and Blackmagic Design switchers.
 - Proficiency with OBS, Reaper, and YouTube Streaming.
 - Solid understanding of AV tech and troubleshooting procedures.
 - Strong communication skills and a team-oriented mindset.
 - Availability every Sunday morning (approx. 5 hours), with occasional evening/holiday service support.
-

Ready to Apply?

If you're passionate about using your technical skills to support a meaningful worship experience, we'd love to hear from you!
